Why it matters

Parallels is the sixth studio album by Fates Warning and reached No. 20 on the US Billboard Heatseekers chart. AllMusic called it the band's "biggest commercial if not artistic success." Rock Hard ranked it No. 371 in its 2005 book of the 500 greatest rock and metal albums, and the band's own label lists it as released October 29, 1991.

Did you know? James LaBrie, who had recently joined Dream Theater, sang background vocals on "Life in Still Water." The album was recorded at Metalworks Studios in Mississauga, Ontario, and Metal Archives lists a release date of October 28, 1991 for the original CD.
